

Pranlal Soni, BE

I, Pranlal Soni, resident of Kutchh (Gujarat) seeks to present certain true facts by way of this Press Note expecting justice.

Our family had come from Kutchh to Ahmedabad since my wife had to undergo an operation. At that time my Bangalore based daughter had also come to Ahmedabad. All of us were busy and tensed due to the illness of my wife.

My daughter had stayed in a nearby Hotel after coming from Bangalore. As a father, obviously, I was concerned and worried for my daughter.

Under the circumstances, she was required to frequently commute during odd hours due to which obviously I would be worried as a father. Under the circumstances, I orally requested Shri Narendra Modi, Chief Minister of Gujarat, with whom we have long standing family relations, to take care of my daughter and to ensure that she does not face any problem. He assured me as a political head of the State.

I am a common citizen and my family is living a simple ordinary life.

It is really painful and shocking for us that certain vested interests are approaching the media to present these facts in a pervert manner.

It is the request of my family and myself to the media to ensure that the vested interests seeking to give political color to our personal family issue be not helped in any manner. It is my humble request to all in the media to help a common man's family leaving an ordinary life by not publicizing our personal family issues.

Thanking all.
